

SCIENCE

# Summer Intensive

**FACILITATOR**

**R. Charles Dershimer**  
UNIVERSITY OF MICHIGAN  
SCHOOL OF EDUCATION  
610 East University Ave.  
Ann Arbor, MI 48109

**AUGUST 11-13, 2015**

## **Next Generation Science Standards**

Science and Engineering Practices

Disciplinary Knowledge

Literacy Practices

This two-and-a-half-day workshop will include a series of practice-based activities designed to support teachers with integrating the science and engineering practices of Next Generation Science Standards (NGSS) into their classroom teaching.

The workshops will actively involve science teachers with learning how to create engaging lessons that represent the disciplinary core knowledge of science. Dershimer, an experienced STEM facilitator, will actively involve science teachers in the use of literacy practices that support students with constructing new knowledge through the use of productive conversations and writing.
